DESIGNED FOR ACTION

James B. Kirby is the pioneer inventor and foremost designer of improvements on the vacuum cleaner. The Kirby model 505 represents his recent ef-

forts to make a cleaner that ACTS, cleans more things better.

HAS TOE-TOUCH CONTROL

A touch of the toe makes the height of the nozzle just right for each carpet. The adjustment is instantaneous. Your eye, ear and touch tell you

HAS QUICK, DUSTLESS BAG EMPTYING

Simply shake the dust down into the Sani Em-tor chamber, release the dust-tight cover and the dirt drops on to the paper. Not a particle of dust is scattered.

miple Cushioned CLEANING ACTION!

- Kirby super-suction draws the carpet up to the nozzle.
- An air-cushion is formed underneath the
- A revolving brush loosens the dirt from the flexed pile of the carpet. This method cleans thoroughly without destructive pounding, scrubbing and crushing.
