Dear Madam:-

To make VACUETTE Ownership" a term of the greatest possible significance, insofar as cleaning service in the home is concerned, is our ambition. That aim is constantly before us. No labor is spared, no cost is considered either in maintaining or advancing the mechanical precision and durability of VACUETTE cleaners and in building up a nation-wide organization of service.

We are very much pleased to learn that you are listed among the rapidly increasing number of VACUETTE owners. We appreciate the confidence which you have placed in our cleaner and in us, and it is with an earnest realization of our responsibility to you as an owner that we express a sincere desire to serve you in every possible way that will insure the satisfactory and uninterrupted operation of your VACUETTE. We are sure this cleaner will render better cleaning service and require less mechanical attention than any other in the world, and, with the high ideal we have established for VACUETTE supremacy, coupled with the extensive organization we have built, it is apparent that the ownership of a VACUETTE is even more desirable now than ever before.

In order that the VACUETTE owners may be assured of 100% service in the cleaning of their carpets and rugs, we have established agencies in all of the large cities and we are steadily extending these agencies to smaller cities such as the county seat in each county, and this means that regardless of where the owners live, they will be able to get prompt, courteous, and satisfactory service for their VACUETTES, should the need ever arise.

This, in brief, is the service policy of The Scott & Fetzer Company. We have placed VACUETTE service on the highest plane possible and we, likewise, shall continue our efforts to give to the buying public the highest grade vacuum cleaner obtainable anywhere. In accomplishing that aim we seek your cooperation. We should sincerely appreciate an expression from you as to the service your VACUETTE has given and any comments and suggestions you may care to make in the best interests of it.

Yours very sincerely,

THE SCOTT & FETZER COMPANY.

G. H. Scott
